

# Calibration 9

## Methods

- Changes compared to calibration 8:
  - Increase the weight factor to 5 for AP, keep it 1 for IE and 1 for VV

The Python scripts used for calibration can be found in folder: \*\Python scripts - Calibration 9

## Results

The calibration results can be found in: Results calibration 9.xlsx

- Some results are a bit better compared to calibration 7 and 9, but most of them are not.
